

Team #358

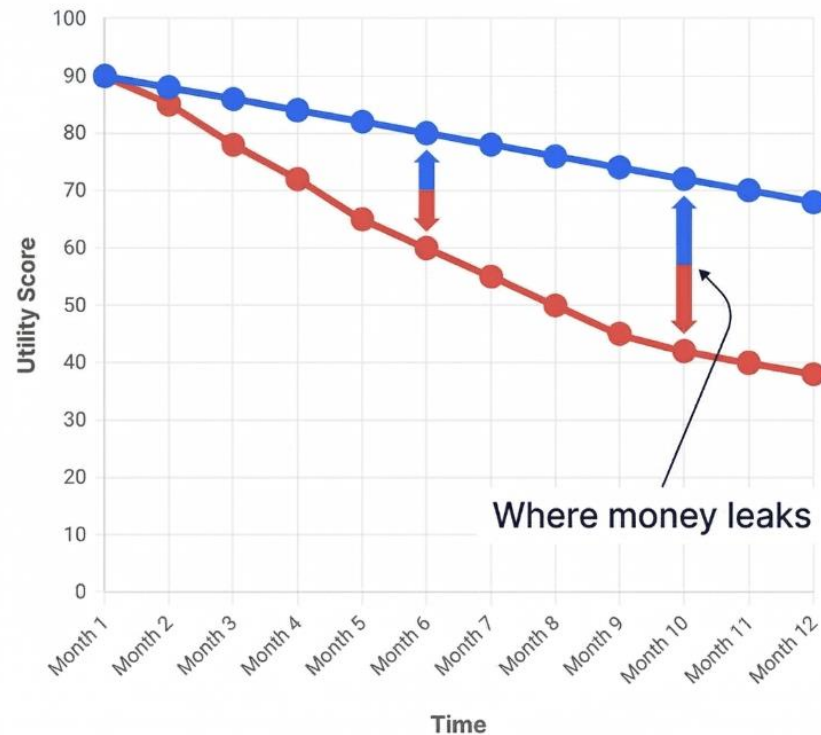

Zapp

Your personal CFO

Intelligent financial management for modern life

Problem

**We don't waste money.
We misjudge value.**

Budgets don't change behavior.

- Predicted Utility
- Actual Utility

Insight: The gap between what we think we'll get and what we actually receive is where money leaks occur.

Tracking apps already exist.

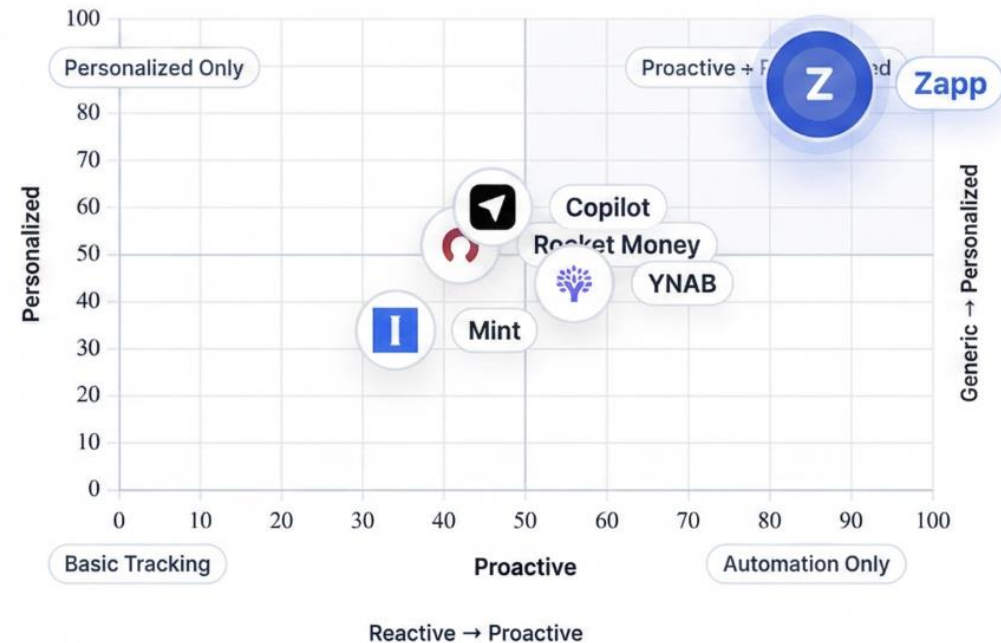

The problem is they're reactive, not proactive.

Feature	Mint	Rocket Money	Zapp
Expense Tracking	✓	✓	✓
Subscription Detection	✓	✓	✓
Personal Value Scoring	✗	✗	✓
Reflection-Based Learning	✗	✗	✓
Pre-Purchase Intervention	✗	✗	✓

Zapp is the only solution that combines reactive tracking with proactive intelligence.

Market Position

Reactive → Proactive vs Generic → Personalized

Zapp learns with you

Your money, intelligently managed

Value Score

Every purchase gets a value score

Based on the value something gives YOU

💡 **Personalized scoring:** Zapp analyzes your spending patterns to determine the true value of each purchase for your specific financial situation.

85

Value Score

✓ High Value

85/100

Personalized value score

User A

Value Score: HIGH

Product: \$50/month gym membership

6 times/month • \$8.33 per visit

- ✓ Goes only 6 times/month
- ✓ Goes consistently after stressful workdays
- ✓ Correlates with reduced impulsive spending + better mood

Net value: +\$120/month

User B

Value Score: LOW

Product: \$50/month gym membership

15 times/month • \$3.33 per visit

- ✓ Goes 15 times/month
- ✓ Also pays for ClassPass
- ✓ Supplements, Athleisure purchases
- ✓ Gym is part of a larger overspending cluster

Net value: -\$85/month
